

Fire Protection Pumps

1. Horizontal center-opening fire pump

Certification	UL/ FM certified
Standard	NFPA 20
Diesel engine drive	Clarke engine, UL/FM certified
Motor drive	WEG motors, UL listed
Controller	Firetrol controller, UL/FM listed
Flow	500 to 5000 US GPM
Pressure	40 to 422 PSI

2. End-suction fire pumps

Certification	UL/ FM certified
Standard	NFPA 20
Diesel engine drive	Clarke engine, UL/FM certified
Motor drive	WEG motors, UL listed
Controller	Firetrol controller, UL/FM listed
Flow	500 to 750 US GPM
Pressure	40 to 151 PSI

3. Vertical pipeline fire pumps

Certification	UL/ FM certified
Standard	NFPA 20
Diesel engine drive	Clarke engine, UL/FM certified
Motor drive	WEG motors, UL listed
Controller	Firetrol controller, UL/FM listed
Flow	150 to 1000 US GPM
Pressure	40 to 150 PSI

4. Vertical impeller type fire pump

Certification	UL/ FM certified
Standard	NFPA 20
Diesel engine drive	Clarke engine, UL/FM certified
Motor drive	WEG motors, UL listed
Controller	Firetrol controller, UL/FM listed
Flow	500 to 5000 US GPM
Pressure	43 to 403 PSI

5. Pressure stabilizing pumps

Certification	UL/ FM certified
Drive	Motor
Controller	Firetrol controller, UL/FM listed
Flow	5 to 300 US GPM
Pressure	43 to 403 PSI
